

Working with the Pavlov Media Internet Center app

With the Pavlov Media Internet Center App you are able to easily manage your Wi-Fi network within minutes. You can set up a guest network, change your password, run a speed test, and set basic parental controls.

Get to know your App

ALERTS

To view alerts, click the bell icon from the Home screen. To edit alerts settings, click on the setting icons on the top of the Alerts screen or use the menu Settings: "Alerts".

EXPIRENCEIQ

This powerful tool feature lets you manage screen time, content and access to website, and applications, all from the app. It also lets you prioritize which devices should get preferred connection so if you work from home and want to make sure you always have enough bandwidth, this feature is for you.

PROTECTIQ

As hackers become increasingly sophisticated your network requires an equally innovative solution. ProtectIQ keeps a lock on your network and alerts you when unwanted visitors, hackers, viruses, or malware try to visit. If it's connected, it's protected!

How to

UPDATE WI-FI NETWORK NAME AND PASSWORD

- Press “My Network” on the Home screen
- Select the network you wish to update the name or password for
- Press “Edit” and update your information
- Note: Changing your SSID or password will require you to reconnect all

SETUP PARENTAL CONTROLS

- Click the People tile on the Home screen
- Tap the “+” icon
- Add a name (and photo, if desired)
- Check the box for any devices associated with that person
- Click edit on the person’s profile when devices need to be added later
- Swipe the Internet Access toggle off to pause all devices connected to the profile

You can set schedules to turn internet access off for all assigned devices during specific times as well as restrict apps and websites.

CREATE A GUEST NETWORK

- Click on My Network from the Home screen
- Click the “+” icon select “Add Network”
- Select “Guest” from Wireless Network Type dropdown
- Create your network name
- Select security type if desired
- Create your password
- You can set the duration of the network to endless or a custom amount of time
- Share the network via QR code or text
